

# 9-1-1 EMERGENCY TELECOMMUNICATOR

**Do you have what it takes  
to work in one of the fastest  
changing careers in the world?**

**Do you want to be proud of the work  
you do and KNOW that you are making a  
difference?**

**Do you want to help save lives?**

**Do you want to work in a safe, clean environment?**

**Do you have a good grasp of technology – a clear, strong  
speaking voice – the ability to stay calm in a stressful situation?**

If you answered “yes” to those questions, then maybe you are a great candidate to be a 9-1-1 emergency telecommunicator. You could be the calm voice on the other end of the line helping to deliver a baby or reassuring someone in distress that help is on the way. We are public servants and you *\*must\** have a drive to help people or this isn’t the career for you. Our ideal candidate will have a criminal justice, fire service or emergency medical background. This isn’t necessary, but preferred. We will be conducting testing a monthly basis.

Please email **Lynette** at [baycounty911@baycounty.net](mailto:baycounty911@baycounty.net) to set up a time to test. Seats and times are limited. You will need to bring government issued identification and a resume to the testing.

*Bay County is an Equal Opportunity Employer.*
